Dear Brainnest Hiring Committee,

My name is Mohamed Askar. I am a Junior Flutter Engineer, and I am writing to express my interest in applying for a Front-end Developer internship at Brainnest.

I came across your job posting through LinkedIn and after doing some research, I believe that this internship would be super beneficial for my career -hopefully at Brainnest - and I would love to be with you guys as soon as possible. I believe that I can be a great fit for this position since I have some experience in a similar role. More importantly, I am always eager to learn and to prove myself in new challenges. I am especially interested in your company because I came across some of the applications you guys make and I was really impressed by the quality of work you offer in these applications.

I feel I would be an addition to your company because I have an eye for front-end design and the ability to implement any idea and bring it into life. I also have the experience in working with FCM notification, state-management, working with RESTful APIs, animations and working with databases. which I developed through working on multiple E-commerce applications. I hope to get the opportunity to start with you as soon as possible. I look forward to hearing from you soon.

Yours sincerely,

Mohamed Askar
