Dear Hiring Committee,

I am excited to apply for a full-stack web developer role at Siemens internship program. As a self-taught developer with a passion for building innovative web applications, I am eager to begin my career in this field.

As a third year computer science student at Benha University, I have dedicated myself to learning and mastering the skills necessary to excel in web development. While I have benefited from formal education, I have also taken the initiative to pursue my own self-learning journey, which has allowed me to develop a strong foundation in web development.

I am proud to have achieved academic excellence throughout my studies, with a 3.93 GPA and being the highest ranking student in my class. This accomplishment demonstrates my dedication to academic excellence and my commitment to achieving success in everything I do.

Through my self-learning efforts, I have gained experience in building responsive and intuitive user interfaces, managing backend development, and deploying web applications. My track record of delivering quality work on time and my excellent problem-solving skills make me a strong candidate for the full-stack web developer role at Siemens.

I am a self-starter who is passionate about web development and committed to delivering exceptional results. I believe that my strong work ethic and my dedication to staying current with the latest trends and best practices in web development will make me a valuable asset to your organization.

Thank you for considering my application. I am excited about the opportunity to contribute to the success of Siemens as a full-stack web developer. Please do not hesitate to contact me if you have any questions or if you require any additional information.

Sincerely,

[Your Name]
